

Another trip to Holbrook , out of boredom allowed for a nice short hunt. Ruben called and asked if I wanted to hunt with him at Holbrook while he was on the way to the Denver show. Not doing much I agreed and was on the way.

Not much to report. The rain did fall there and move a little bit of the dirt around but certainly not enough. Folks in Holbrook said the rain was all around them this year but they did not get much in town or in the strewn field.

Here are my finds for the hunt along with two that Ruben found.
